

## STREET ART

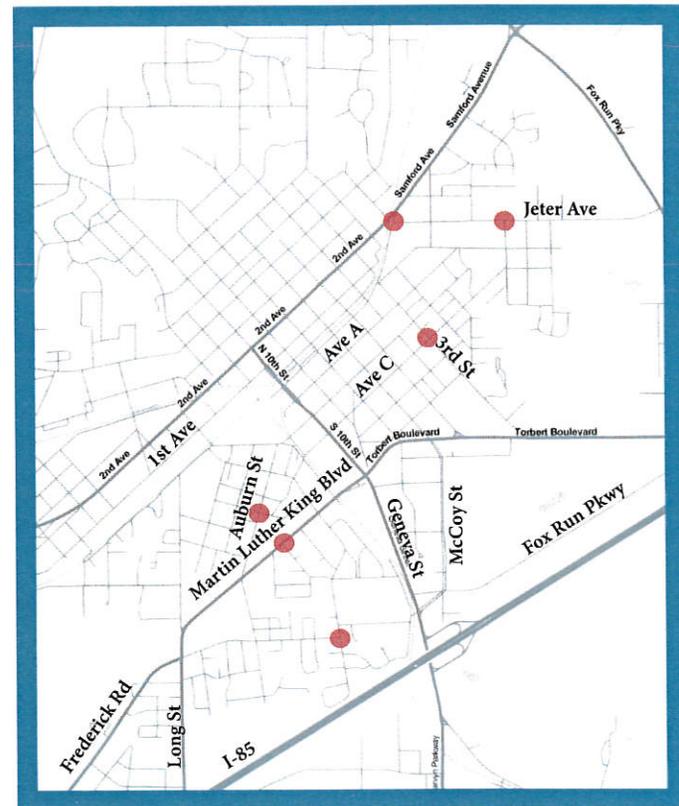

### CARVER & JETER AREAS

Designated intersections of the Carver and Jeter communities should be creatively and colorfully designed as visually appealing neighborhood features at prominent locations within the area. These artistic expressions are strong visual cues to passersby of the passion and pride of the community. Residents of each area should be engaged to design these intersections in a way that reflects the heritage, history, character and aspirations of the Carver and Jeter neighborhoods.

The intersections that should be prioritized for implementation of street art include:

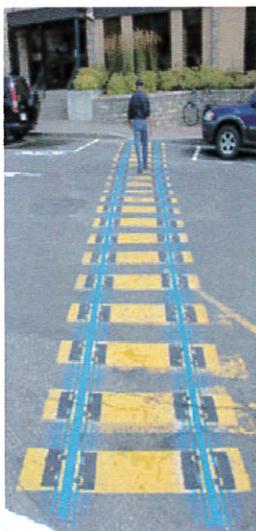

- Auburn St & Orchard Ave
- Jeter Ave & Darden St
- Jeter Ave & South Railroad Ave
- Lee St & South 4th St
- MLK Blvd & South St
- Magnolia St & Carver Ave

## CHAPTER 2 BIG IDEAS

Street art is a simple, cost effective and fun way to engage local residents to express pride in the community. Examples include intersection and crosswalk designs installed with simple paint.
