

## Pepperell Branch *Watershed Partnership*

Alabama Cooperative Extension System  
Nikki Dictson • 979.575.4424  
City of Opelika Storm Water Division  
John Harris • 334.705.5454

Two upcoming free workshops on the AU Campus!

### **January 25, 5:00-8:00 pm**

Free Alabama Water Watch Bacteriological Monitoring Workshop

Description: Detect levels of E.coli and other coliform bacteria in water as indicators of contamination. Determine if water is safe for drinking, swimming and aquatic life.

Register Online: <http://www.alabamawaterwatch.org/event/bacteriological-monitoring-workshop-lee-co-al/>

Contact Email: [awwprog@auburn.edu](mailto:awwprog@auburn.edu)

Workshop Contact Phone: 334-844-4785

Workshop Location: CASIC Building 559 Devall Drive Auburn, AL 36849

### **January 26, 9:00am-4:00 pm**

Free Alabama Water Watch Water Chemistry Monitoring Workshop

Description: Test physical and chemical characteristics of water to determine pollution sources and long-term trends in water quality. Six variables are measured with a customized test kit, and results can be compared with water quality standards that define conditions for healthy waterbodies.
